ABOUT ME

A very communicative person and a passionate learner. An excellent team-player because collaboration and teamwork can lead to more innovative and successful projects. Pursuing a Bachelor's degree in Computer Science and Engineering, as a 4th year student, I am seeking an entry position in your company. It will help me to expand my knowledge and gain experience through real projects.

Elementary School

"Vancho Nikoleski"

City: Ohrid

Country: North Macedonia

TECHNICAL SKILLS

HTML5

CSS3

JavaScript

C

C#

.NET

ASP.NET

MSSQL

PROJECTS

Portfolio

I created a responsive portfolio using HTML, CSS, and JavaScript. Additionally, I uploaded three short projects using the same technologies, retrieving information from APIs. The standard Weather app allows users to search for weather information by typing the city they want to know about. The Jokes app displays a random joke when a button is clicked, using a timer. Lastly, the Recipes app requires users to enter a key word, and the first recipe and information about it from the API are displayed for the user to see.

Booktopia

Using the same front-end technologies, a group of students with whom I collaborated, developed a responsive web application. We successfully finished our tasks, demonstrating not only our technical proficiency but also our adeptness in essential soft skills. Effective teamwork, clear communication, adaptability, and problem-solving were the key to our achievement.

WORK EXPERIENCE

[05/2022 – 08/2022]

Kitchen assistant

Timun DOO

City: Dubrovnik

Country: Croatia
